# What makes NATURE COAT your default choice?

## APPLICATION EASE:

No overlaps during the application and maintenance, no recolouring, dries quickly. Does not form a film, does not flake. Simple, rapid application. Post - application maintenance without sanding.

## ECONOMICAL:

Single Coat, contains no solvents or water. 5X more concentrated: 100% of the product acts on the wood/veneer, covering 20-25m<sup>2</sup>/L in a SINGLE coat.

## AESTHETIC:

Clear coat protects and enhances the natural beauty of wood/veneer or plywood without forming a coat over it. Staining is uniform and easy to create using multiple shades, individually or mixed in desired proportion.

## MULTI PURPOSE:

Can be applied to all types of wood: board-leaved, exotic, tropical, conifers, autoclave-treated or heat-treated wood and composites. New or old wood/veneer, plywood & MDF.

## CERTIFIED:

Tested in conformity with Standard QUV EN 927-6 (ageing-process accelerator), conforms to Toy Standard EN 71-3. Manufacturer ISO 9001 and ISO 14001 certified.

## ENVIRONMENTAL POSITIVE:

Based on natural products, contains no VOCs, formaldehydes, isocyanates. Human Applicator friendly.

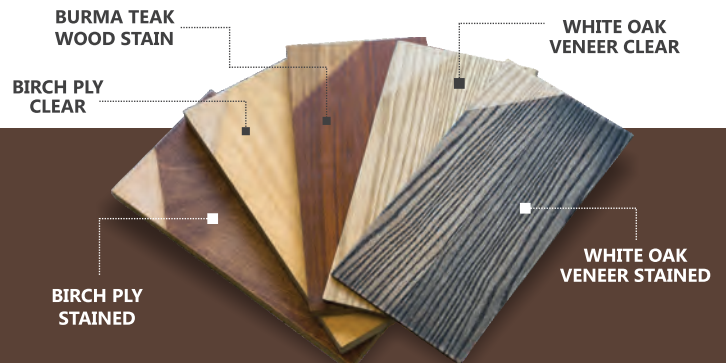

## THE TECHNOLOGY:

Uses BIO CROSS LINKING technology to ensure that the active oil links with the wood at the molecular level thereby protecting and finishing it well.

The Activator is additionally recommended to accelerate the crosslinking and to reduce the time before one can use the product.
